Chad Lindsay, *Vice President, Southern California*  
Pacific Maritime Association  
One World Trade Center, Suite 700  
Long Beach, CA 90801

Chad,

In light of the current Coronavirus (COVID-19) pandemic, we insist that the Pacific Maritime Association (PMA) and its member companies immediately take affirmative actions to ensure the health and safety of the ILWU workforce. It is the responsibility of the PMA to ensure the health and safety of each and every ILWU worker employed by you. In the event our workforce were to be exposed to the COVID-19, an outbreak would occur that would be detrimental to our members, their families and the community. It would also negatively impact the movement of cargo that could have a catastrophic effect on our national and local economies.

As we now know, the exposure to COVID-19 can be immediate or can exist for hours and even days, depending on the type of surface. This fact presents a clear and present danger to the ILWU workforce. Locals 13, 63, and 94 request that the following measures, at minimum, be implemented immediately:

**CARGO HANDLING AND OTHER EQUIPMENT**

Any and all equipment operated by Longshoremen, Marine Clerks, and Foremen, shall be sanitized between each and every shift, day, night, and hoot, by ILWU terminal mechanics (or ILWU gearmen at “red circle facilities”). We recommend the use of commercial grade disinfectant sprayers similar to those used in the airline industry (examples attached).

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Non-porous gloves, masks, and protective eye wear shall be available to all ILWU workers upon request.

**MARINE TERMINALS**

At all marine terminal facilities (e.g., M&R shops, gear lockers, check-in areas, Supercargo and Foremen offices, restrooms, etc.), install hand sanitizing dispenser stations. Hand sanitizing solutions must contain a minimum 60% alcohol or bleach solution pursuant to Center for Disease Control and Prevention (CDC) guidelines. High contact/frequent touch areas such as Clerk work stations (including tables, desks, keyboards, tablets, MODATs), and Trouble Windows, shall be sanitized prior to each shift, day, night, and hoot.

Marine terminal facility restrooms and check-in areas, must be sanitized after each shift worked and before the start of each subsequent shift, by ILWU sweepers.

**Hot water**, hand soap, and hand sanitizer dispensers shall be available in all terminal restrooms. These protective measures are not intended to represent an exhaustive list, but do represent a minimum level of protections to our workforce that must be implemented immediately. We look forward to your anticipated cooperation.

Sincerely,

Ray Familathe  
President  
ILWU Local 13

Michael A. Podue  
President  
ILWU Local 63

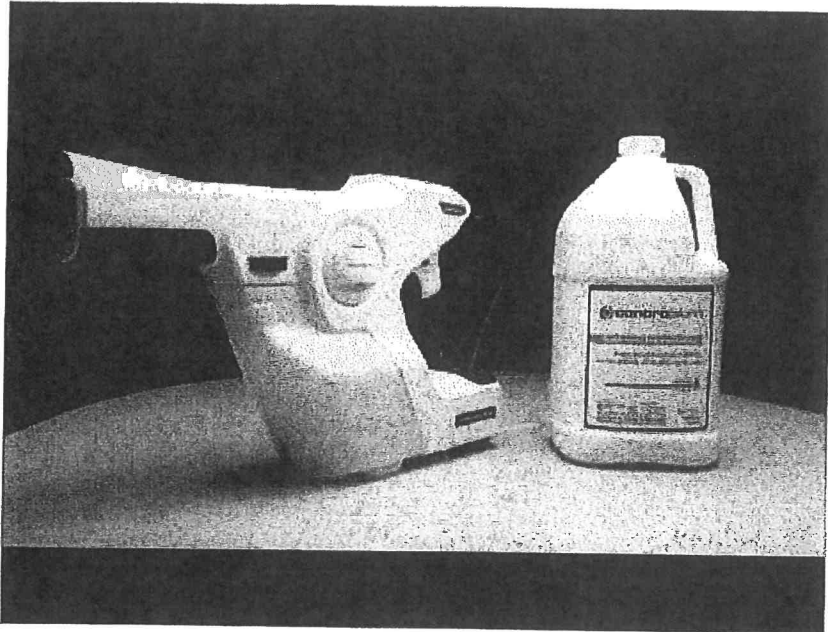

Daniel G. Miranda  
President  
ILWU Local 94

- Effectively removes and kills black mold, mildew, moss, lichens plus disinfects large areas quickly
- 100% continuous duty electric motor
- Energy-saving, on-demand operation
- Battery monitor
- Pressure switch

### Product Summary

The NorthStar® Soft Wash and Disinfectant System delivers high-performance, low-impact cleaning to effectively remove and kill black mold, mildew, moss, lichens and dirt from roofs, siding, decks, fences, bricks and more — no scrubbing or high pressure required. This patent-pending system uses water, NorthStar Max Cling soft wash surfactant (Item#s 81297 and 81298, sold separately) and common household bleach to create the ultimate solution for cleaning and disinfecting large areas quickly. Plus, it features exclusive patent pending Motor Armor technology to automatically shut the pump off if a leak is detected, protecting the motor from damage and allowing a quick, low-cost pump cartridge replacement. With the included fan tip and long-throw nozzles, you can quickly disinfect large areas with a bacteria- and virus-killing bleach formula, plus soft wash broad surfaces and reach high peaks, roofs and soffits up to 28ft.H safely without using a ladder. Add the telescoping extension wand, Item# 81140 (sold separately) for extending your reach up to 52ft.H. Sturdy steel frame with handle and 10in. flat-free wheels provide easy mobility.

#### What's Included

(1) NorthStar soft wash and disinfectant system with 4.0 GPM bleach pump

### Features + Benefits

- Effectively removes and kills black mold, mildew, moss, lichens plus disinfects large areas quickly
- 100% continuous duty electric motor
