FOR IMMEDIATE RELEASE

UPDATE: Weekend Closure of Westbound State Route 47 at Vincent Thomas Bridge in San Pedro for Structural Inspection

Los Angeles — The California Department of Transportation (Caltrans) announces a full closure of westbound State Route 47 (SR 47) at Vincent Thomas Bridge from 7 p.m. Friday, March 28 to 7 p.m. Sunday, March 30 for a structural inspection of the bridge.

The closure is required for Caltrans engineers to perform structural inspections of the main cable bands located along the bridge's suspension cables. An additional closure of the westbound lanes may be required the weekend of April 4.

Westbound SR 47 will be closed at the Ferry Street off-ramp. Traffic will be diverted to State Route 1/Pacific Coast Highway (SR 1) from Interstate 710. Motorists may also access Pacific Coast Highway via SR 47, Henry Ford Avenue, and northbound Alameda Street. Detoured traffic will be directed to Interstate 110 from SR 1.
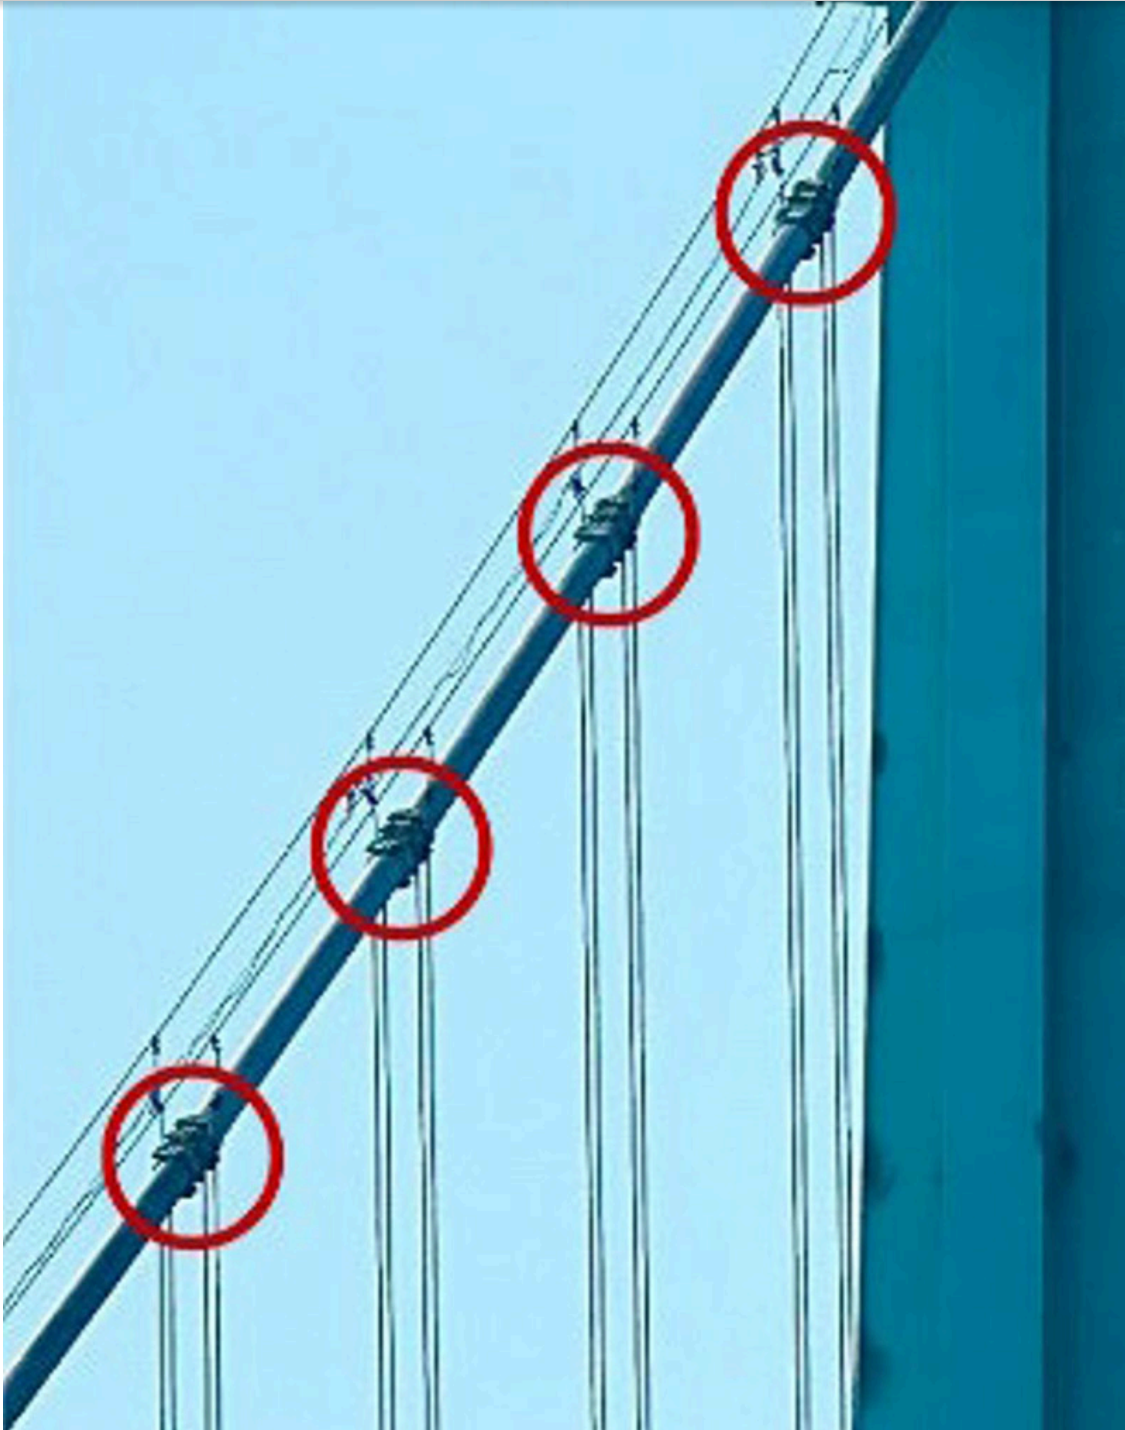

Caltrans urges motorists to avoid the closure and use alternate routes where possible.

"Be Work Zone Alert" and to "Slow for the Cone Zone." Real-time closures at Caltrans QuickMap.

For more information about transportation and other infrastructure projects funded with state and federal investments, visit Build.gov.ca. Caltrans reminds motorists to be "Work Zone Alert" and "Slow for the Cone Zone."
