

MY TIME BOOK LOCAL 63 WORK CARD APP

(Android Phone distinctions)

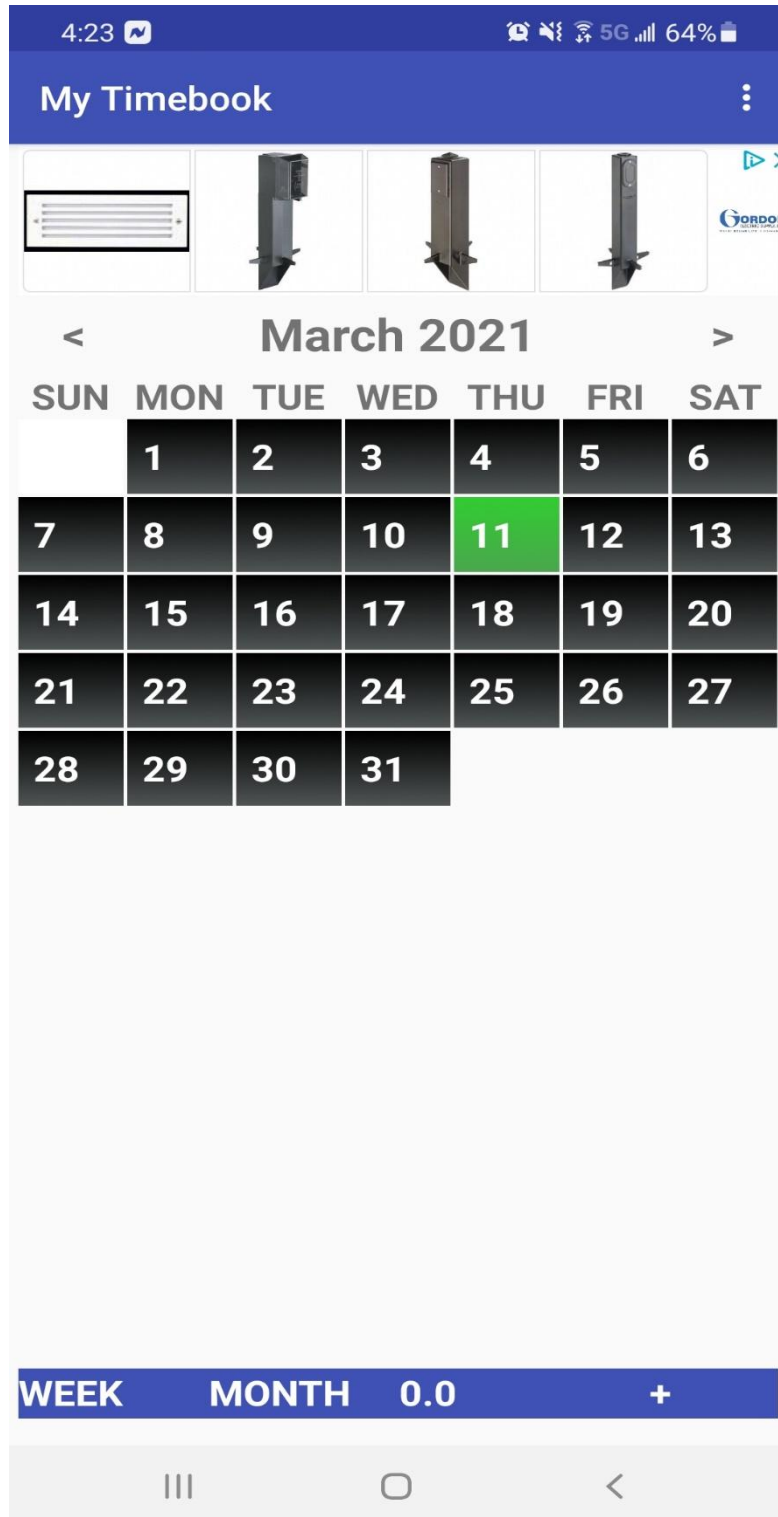

Members that use the Local 63 Time Book app with an Android phone will fill out their Work Cards in the app just like the iPhone instructions provided in this Manual; however there are 2 main differences:

Difference #1 – Must download “My TimeBook” in your “Play Store” as opposed to the “App Store” (Android).

ILWU Timebook app to keep track of your hours and jobs worked on the waterfront.

Difference #2 - After installing and opening the “My TimeBook” app, you will click on the 3 vertical dots in top right of screen and select “Settings” as opposed to clicking on “User Profile” (iphone). ↓

After clicking on “Settings” you will land on this screen below and you will need to fill out all relevant information. Just like the iphone version, “User” is your Reg.# and “Password” is your last name, lowercase. [Note: Please ignore the “Top Pay” box as that is used by Casuals taking Clerks jobs.] After finishing, the information is saved automatically (no “save” button).
